Reindex files

Pre requirements:

- [x] Install git here: https://git-scm.com/download/win
- [x] Install nodejs and npm here: https://nodejs.org/en/download/ (nodejs come with npm)

Example source project and script:

```
git clone https://github.com/Comerick/Reindex-src.git
```

Type for help:

```
make
```

Setup before run:

```
make setup
```

Run script (default):

```
make reindex
```

Run script (example):

```
make reindex folder='src' pattern='-name "*.entity.ts"' silent=true
```
